

## Presales SOA Specialist

### Function Description

In order to expand Aprico Consultants' service offerings, we are looking for an experienced SOA specialist. This professional will act as a Solutions Architect and Pre Sales Consultant in close cooperation with the sales force and Business Line Manager. He/she will meet potential customers and assist clients with the design and architecture of SOA Solutions.

### Responsibilities

Depending on your specific assignments, your responsibilities will include:

- Designing and promoting SOA solution architectures
- Providing guidance on SOA implementations (governance, best practices, patterns, pitfalls to avoid...)
- Providing SOA team members with day-to-day operational direction, leadership and design skills
- Preparing and making demonstrations, proofs of concepts (PoC), and presentations to clients

### Communication Skills

We are looking for an experienced consultant with good customer-facing skills who feels at ease making presentations and demonstrations.

Proficient skills in Dutch (spoken), French (spoken), and English (spoken and written) are expected.

### Technical Skills & Experience

The ideal candidate must have a very strong solutions architecture background and design skills, along with good customer-facing and presentation skills. The candidate should have worked with at least one of the following SOA technologies: IBM Websphere Business Integration, IBM Websphere ESB, IBM Websphere Process Server, SAP NetWeaver, SAP XI, SAP PI, Microsoft Biztalk, Oracle Fusion Middleware, webMethods, Tibco iProcess suite, Tibco BusinessWorks or other similar solution.

You have a comprehensive knowledge of SOA concepts, object design, component and services design.

S.A. APRICO CONSULTANTS N.V.

## Personal Skills

As a consultant, the candidate should be able to work independently and follow project priorities and deadlines. He/she will closely follow project procedures (check-in, check-out, time sheet reporting, punctuality, ...) and adhere to the rules, standards and guidelines defined in the architecture.

The candidate will also strive to stay up-to-date with the latest SOA technological trends.

## Certification Path

Aprico is a strong believer in the value of professional certifications. We strive to certify our people in their domains of expertise.

The candidate will have the possibility to extend his/her competence by achieving some of the following certifications:

- IBM SOA Solution Designer Certification
- SAP Professional and/or Master Process Integration, Technical and/or Development certifications
- Microsoft Architect certifications

## Our Offer:

In addition to a complete salary package that includes a company car and benefits, we offer the opportunity to join an experienced team of people who share a dedicated interest in Information Technologies.
